COLLECTION DEVELOPMENT POLICY STATEMENT

I. PURPOSE AND PROGRAM DESCRIPTION

A. Library Collection Development Objective

The library seeks to support the curricular, research, and regional information needs in analytical, biochemical, inorganic, organic and physical chemistry. Special emphasis will be focused on chemical methods and instrumentation used for determination of chemical species and characterization of compounds, and studies of physical properties.

B. Description of User Groups Supported

User groups supported include undergraduates and faculty. The chemistry program has been fairly steady in the past five years; the number of faculty (12) has remained the same. There was an estimated decrease in the student population of about 10%-15%.

C. New and Expanding Areas of Interest

The Chemistry Department has submitted a proposal for a Professional Master's
