# The STRAIGHT and NARROW

Volume5,

Each institution must develop apdblish a Satisfactory Academico@ress [SAP] Financial Aid Policy which minimally outlines:

- x The Qualitative Standards of Progress the pontionst numerically specify and outline how the qualitative standard is computed. The policy musticate if the GPA is the and and used. The policy must indicate which courses are included in the utation of the GPA and and an the computation is cumulative.
- x The Quantitative Standards of Progress the policy must numerically specify and outline how the quantitative standard is compute the policy must indicate the coussie cluded in the computation of the quantitative standard. The policy must be computation is cumulative.
- x The Completion Ratio the policity ust outline the required satisfary completion of coursework towards the degree/certificate a student must acliniconder to remain eligible for financial aid.
- x The Appeal Process the policy most line the process by which a seud may appeal a decision that suspends his/her financial aid etbidity. Institutions are not requide to have an appeal process. However, if the policy states ansititution has an appeal process, appeal process must describe how the student may reestablish hisher eligibility to receive assigntce, [Title 34: Education § 668.34 Satisfactory academic progress].
- x Repayment of Title IV and/or Gegia Hope financial aid funds the policy must clearly specify the students' responsibility for repanding the institution and/or the FederDeepartment of Education for financial aid funds received through the IV and /or Georgia Hope the student does not remain enrolled and academically active in school through the attmum 60% of the semester. [Return of Funds cites HEA, Section 484B, 34 CF068.22; Consumer information ciBection 485(a)(1)(F), 34 CFR 668.43]
  - i Collection process The refund policy must **outlithe** legal collection process for reclaiming Title IV and/or Georgia Hopfaunds owed by the student. [Per institution, if applicable]

### Construction Audits

i Construction projects incur risk

The job of a construction auditor is to mitigate the risks associated with construction projects and to provide assurance that company money is managed appropriately. Construction projects are often a business's greatest single expense, so they naturally incur a great deal of risk.

Billions of dollars are spent each year by organizations on capitakpenditures. Investing in capital projects makes amganization vulnerable to construction fraud and unnecessary costs. Lack of resources, lack of sound business processes and lack of oversight by projectetams assigned to the project

Please note that since SB 160 did not go iffecteuntil July 1, 2013, the report submitted in December 2013 should include a listing of:

All contractors hired for public works relead projects (renovations, maintenance, improvements, etc. – based on HB 87 deforitof "physical performance of service") for all contracts executed from December 1, 2012 – June 30, 2013.

All contractors hired for the physical performance of service (as defined in SB 160) from July 1, 2013 – November 30, 2013.

Summary of Title 13 – Reporting – Key Points

- Effective July 1, 2013, the definition was revised stitutions will need to obtain affidavits from a significantly larger number of vendolnan in previous gars, based on the new definition.
- Affidavits are obtained from any ephoyer with one or more employees.
- The affidavit is available on the DOAA website.
- If you hire a contractor that self-employed and has no enonymodes, you must obtain a copy of their driver's license ostate-issued ID card.
- For the Title 13 report, the insttton must list all contracts thateet the definition of "physical performance of services."

Finally, please keep in mind that all reports **due** to the Department **A** fudits and Accounts by December 31. Reporting is an annual ever AA will not accept submissions by mail, fax, or e-mail. All institutions are required to upload a comma delimited field or text file into the system or enter the date directly in the system on the DOAA web site.

DOAA is creating a video to summarize therefore reporting requirements and provide a demonstration of the collection system. Therefore will be available by November 15, 2013 and can be accessed atww.audits.ga.gov Questions may be submitted mathematication and the system of the collection system.
