## **Assessment of Learning**

**Class Participation and Attendance:** Since more than half of this course involves active experiences, it is not possible to "make-up" missed material; therefore, **attendance is mandatory**. Absences need to be university approved and will require documentation substantiating the absence. It is the responsibility of the student to obtain missed material from one of their classmates. During lab you will be working in groups or with a partner most of the time. To deduce your class participation, the other members of your group will be asked to evaluate your participation and effort and will form the basis of your participation grade.
