## Course Objectives

\_\_\_\_\_ : This course is designed to accompany Bio 1030 by presenting exercises that emphasize the processes involved in the development and maintenance of multicellular organisms. The objective of this course is to provide students with a hands-on experience in general biology. Students will participate in the process of scientific inquiry by asking scientific questions, developing hypotheses, predicting outcomes of experiments, collecting and interpreting data, and drawing conclusions from the results.

## Learning Goal

Grading: Your final grade will be determined by laboratory quizzes, laboratory reports, homework assignments and
